# Rahman Younus

Senior Software Developer at Uttily  
Heckmondwike, West Yorkshire, United Kingdom

## Summary

A passionate and hardworking individual working in the technological field creating unique and bespoke experiences. Logical and coherent developer with numerous years of experience in a range of different technologies and languages.

I was born in Germany and lived there for 9 years before moving to the UK. I have a great understanding of a number of different languages, and as a result, have also had the opportunity to meet a bunch of interesting people from lots of different backgrounds.
