## Objective

A Full-stack Software Engineer with 5+ years of commercial experience, seeking full-time roles. Experienced in working for both start-ups and established companies.

## Work Experience

### **DAZN**

**Nov 2019 – Present**

#### Software Engineer

- Working as part of a key team in charge of the editorial tools that are used to curate the entire customer-facing DAZN platform.
- Built tooling from scratch to replace the legacy systems, held several meetings with the product and editorial teams to understand their needs, which allowed me to build something that works best for everyone. Was involved in re-imagining the way editors worked and hence was able to achieve higher tooling satisfaction scores.
- Responsible for engaging with stakeholders and making sure expectations are met.
- Conducting interviews to find recruits for our team. I was also responsible for onboarding them to the team and the wider company.
- Presenting at regular team stakeholder demonstrations. I also hosted and presented in our domain-wide townhall presentations where I represented our team.

### **Uttily**

**Apr 2019 – Aug 2019**

#### Senior Software Engineer

- Lead and mentored junior team members at a fast-paced gas company start-up.
- Built highly tested and highly available tools for a competitive market.
- Headed up key initiatives at the company and made sure they were built to expectations.
- Worked to tight deadlines due to the start-up nature and ensured that they were met by myself and the team.

### **Industrious Agency**

**Mar 2018 – Apr 2019**

#### Software Developer

- Responsible for building high-quality bespoke solutions for clients' needs with ambitious deadlines.
- Worked in a fast-paced agency/consultancy style environment.
- Had the opportunity to work on diverse projects ranging from food to car websites.
- Absorbed a lot of key developer knowledge and experience to lay the foundations for my career.

## Education

### **University of Huddersfield**

**2013 – 2016**

BSc (Hons) Computing – First Class

### **Mirfield Grammar Sixth Form**
